Sadness of wreck that claimed sisters tempered by memories

The recent tragedy involving the three sisters on Highway 87 South brings great sadness to everyone who was fortunate enough to have known them.

I was very fortunate to have been taught by Audrey Moon in the fifth grade at Haw River Elementary School. Mrs. Moon was so much more than a schoolteacher to her students. She was one of the students, she was a friend to all and made everyone feel good about themselves. She always looked for the positive in any situation and made things seem better even if they weren't. One of my fondest memories of Mrs. Moon is the way she would play with her students on the playground. She would play kickball, softball, swing or play tag. Whatever we were playing she was right there with us. Every student was a winner with Mrs. Moon.

Through the years I have maintained a close relationship with Mrs. Moon through

church, community and neighbors. Mrs. Moon always seemed glad to see me and always had a joke or two to share. Joke telling was one of her many joys in life, along with her flowers and wildlife in the yard. She shared so much with me from the lessons of the fifth grade to the iris plants she gave me this spring.

I never got to know Mrs. Mogle or Mrs. Fuquay in the same way I know Mrs. Moon, but I feel I knew them from hearing Mrs. Moon talk about them so often. The sisters' love for each other showed in all of them.

I truly feel my life is much enriched for being fortunate enough to have had Audrey Moon teach me in the fifth grade and continue a relationship that I will always treasure and hold close to my heart. I loved Mrs. Moon very much and am proud to have been one of her students.

JUST ANOTHER DAY

Clang! Clang! There goes the last bell, and just look at those boys and girls pick up their heels and run. They rush like mad for the homerooms, but a few unlucky ones are seen on their way to get that famous "blue slip."

The first few minutes are spent in a whirl of confusion 'mid conversations, laughter, and that daily question, "Where are my books?" This is for a short time only, because soon they are off, loaded with books, to their morning classes.

"Ouvrez les livres, s'il vous plait," is heard coming from the French class, while next door the English students are tussling with a theme. Science pupils experiment with grasshoppers, as the typing class makes rhythm by pecking on the keys. Tempting aromas from the Home Economics room fill the study hall, antagonizing the poor students who are cramming for a test. The band is practicing in the auditorium. A receptionist answers the telephone in the office. There has been a call meeting of the National Honor Society, and the Student Council is having its session. Everyone is busy.

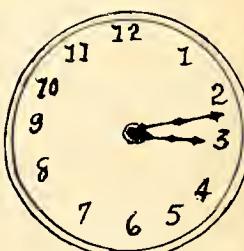

Recess, and the fellows and gals rest their tired minds by congregating in the hall and rooms or hurrying to meet that certain someone whom they haven't seen for two whole periods. "Whatcha got to eat?" is asked everywhere, and out come the apples, cakes, and what have you.

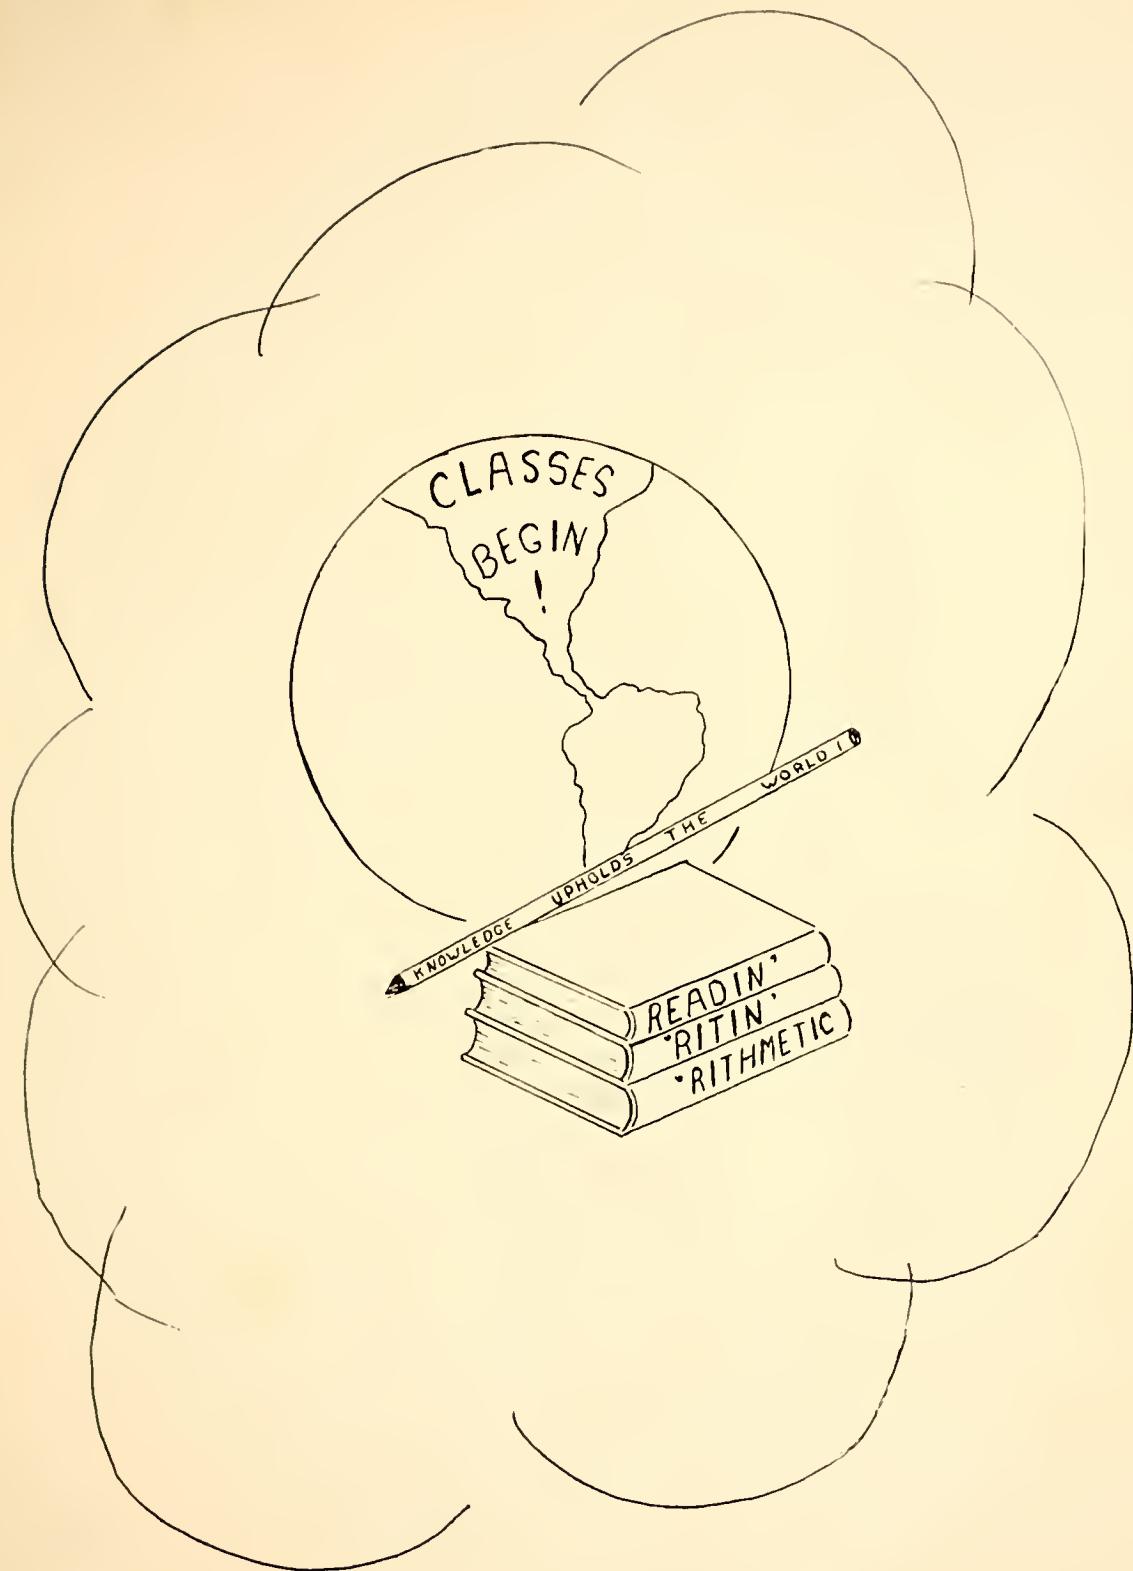

Once again classes are resumed. The American Revolution is fought again; the geometry students struggle through a problem. But studying is hard; because their stomachs tell them that lunch is not far away. Cafeteria workers leave, and those in the study halls find it hard to keep still.

Lunch time, at last, and the two study halls and the Diversified Occupations class race to see who can be first in line. A few minutes later the lunch room is crowded with hungry pupils. What expressions are seen on the faces of the students as they eye their plates! Each day they vary. Everyone eats hurriedly so that he may have more time to talk or to primp—according to the sex. Then they wander back to their rooms to study, but oh how good it would be just to sleep!

Each day the Bible class is entertained by the Glee Club, which has its class just below the Bible Class. D. O. students leave at this time to go to their work. Julius Caesar lives again in the Latin classes. The Physical Education groups play out of doors or study rules of good health. Boys' and girls' sports are carried on after school and at night.

Finally, the classes are dismissed. The boys and girls grab their belongings and depart. Another grand day is ended at dear old Graham High.

DO YOU REMEMBER?

On that early, warm, Autumn day way back yonder in 1936, as we eagerly pushed our sunny little faces into the doorway of grade one, our eyes shone with great anticipation over this exciting new adventure. We looked about us and saw many small, strange faces which were destined to play important roles in our lives and share twelve happy years with us.

Almost too fast, we passed into the second year. The highlight of that year was, without doubt, our trip to the fire station. Our tiny hearts almost burst with excitement on that memorable day. We climbed on the fire engine and listened with big eyes to the stories of the fire chief.

The third and fourth years fled as we discovered ourselves packed with more and more precious knowledge of reading, writing, and arithmetic.

In our fifth year the State Fair was held at Raleigh; therefore, we found ourselves milling through the crowds, eating cotton candy and riding the hobby horses. On the same day, we visited the capital and shook hands with Governor Hoey. This incident made us feel very important indeed.

Grades six and seven passed slowly. At the end of the seventh year, we were shocked to find out we would have to spend an extra year in the grades; however, our eighth year passed quickly. Finally that glorious day arrived when we received our elementary diplomas. We were in high school at last!

Then came that horrible year we spent as green, green freshmen. We felt so lost and little among all those big people. It was terrifying!!

Breathing a sigh of relief, our class found itself as sophomores. We felt more important now and at least we could pick on the new freshmen! Many of our classmates were now active in sports and in the Glee Club. The girls were busy learning to be good home makers. The air was constantly filled with delicious aromas escaping from the Home Economics Department.

In our Junior year we were busy attending to many happy events. The fall was spent going to football games, the winter cheering our basketball teams, and we even turned out to watch some fine baseball in the spring. With the great problem of the Junior-Senior Banquet staring us in the face, we set to work. Our hard work was justified for we have never seen a more beautiful banquet. We hardly recognized each other in our striking evening clothes. Many of us wore formals for the first time. How grown up we felt on that wonderful night!

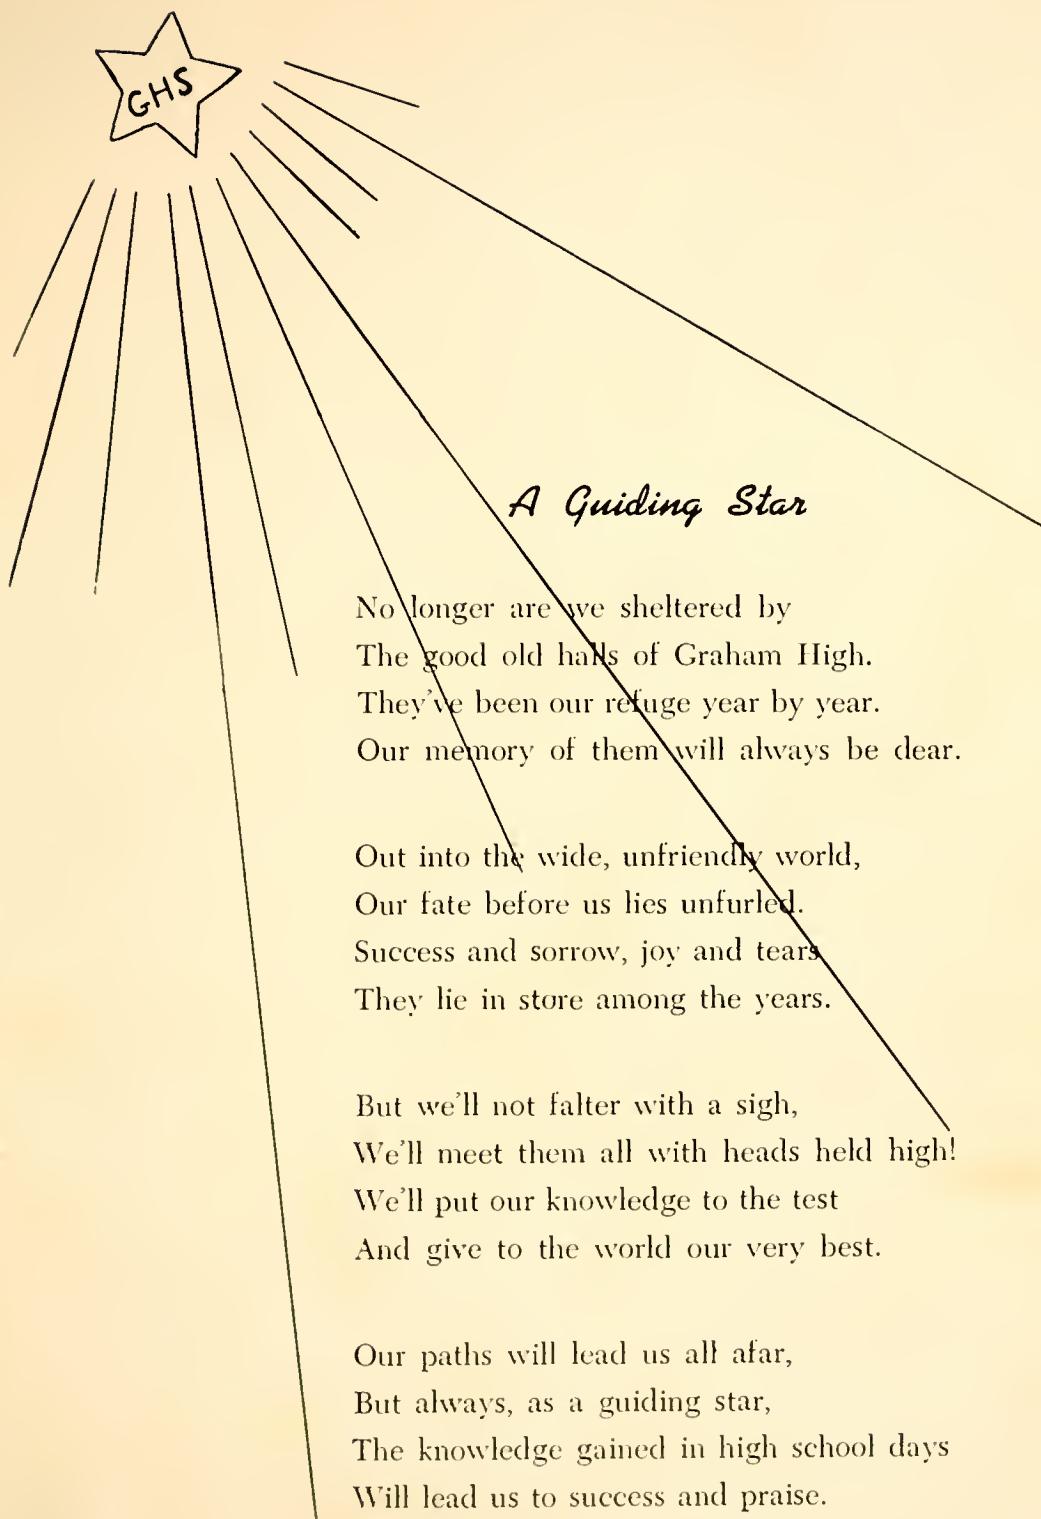

Finally after eleven long years of waiting, we became the Senior class of "48." This day had been only a dream for so long we could hardly believe it was true.

None of us will ever forget the day we received our shiny new class rings or the day we decided to have the first annual Graham High ever published. We were swamped with work—algebra, physics, French, and English. All of us had our noses stuck in college catalogs, trying to decide on a career and a college to enter after our days at G. H. S. were finished.

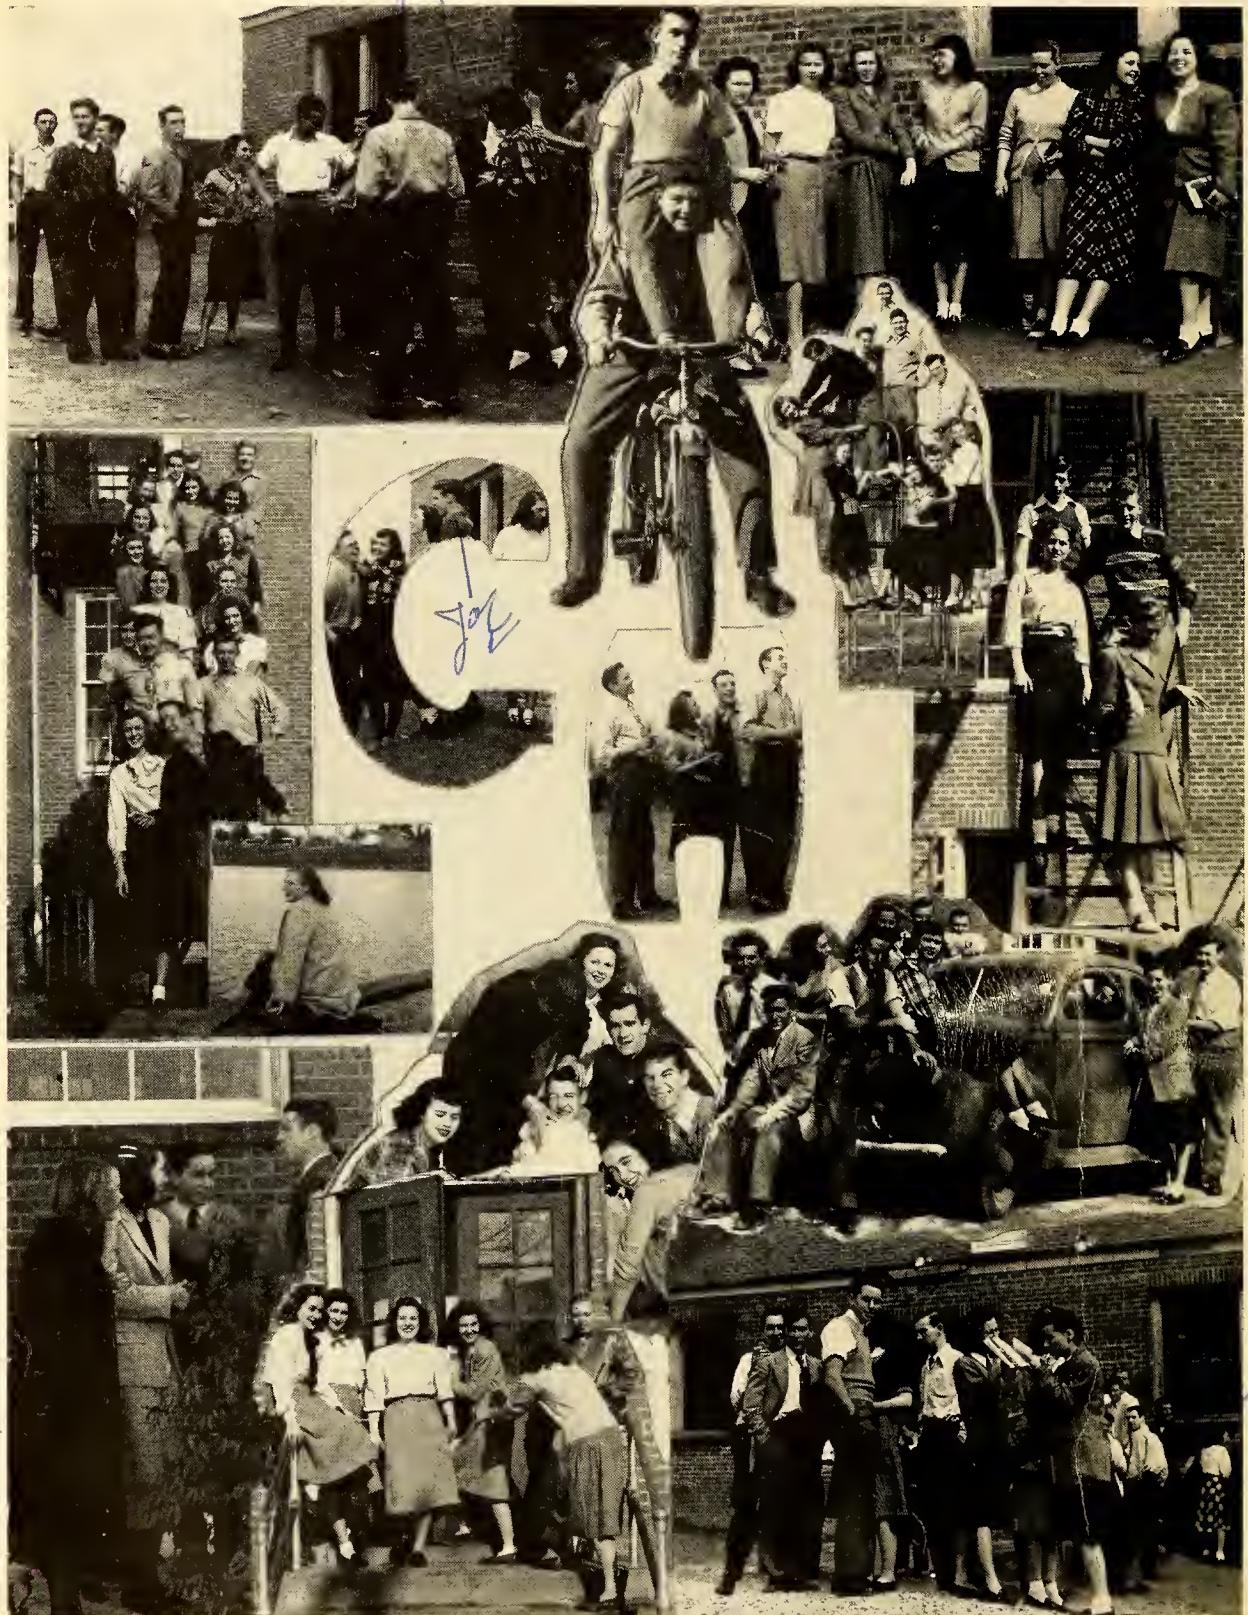

Now in the midst of planning our Washington trip and our commencement, we stop to realize that we will soon be going out the same swinging doors we entered so long ago. In these years we have learned not only facts from books, but sportsmanship and the value of friends. These years have been happy years, filled with the joy of youth and also the pains of growing up. We won't forget old Graham High and the happy years we spent within its sheltering walls.

Since that first day in the first grade, the time has passed quickly. The years ahead may be trying ones. We are aware of our great job in the future. We can only hope with all our hearts that the rest of our years will bring the happiness and joy of our last twelve within old G. H. S.

We, the graduating class of Graham High School, in the Year of Our Lord nineteen hundred and forty-eight, do hereby declare this to be our last will and testament. We have no wealth, but we are endowed with certain talents that we would like to bequeath to our friends and classmates.

To the world we leave hope for everlasting peace and freedom for all mankind.

To our school, Graham High, we leave hope, everlasting gratitude, and our sincere wishes for the future.

To the High School Faculty we leave our most sincere appreciation for the guidance so willingly given in preparing us to face the future with a firm resolution to strive for success in all our undertakings.

This is your radio station WAG bringing you the spotlight news of '63!

Flash: Peggy Allen, the famous beautician, will probably "curl up and dye for you." *Guess What:* Helen Jones struck oil while trying to hit high C. *Announcement:* Dr. Alex Goley delivered his thousandth baby today. 800 have been named "Alex." Betty Glen (Quiet Please) Logan is now a librarian at Banks Holt Library and is doing very well. *Get This:* Bobby Andrews is now a preacher in his own shoe repair shop, "He is a mender of bad soles." *Millionnaire:* Roland Allison is really cleaning up in his 15 chain dry cleaners. *Gossip:* Alease Stevens can really get the dope being private secretary to a love-lorn adviser. *Sport Fans:* Gene Cathey has just signed a fifty-year contract with the Brooklyn Dodgers; doctors say that this hefty pitcher is good for another sixty. *Music Lovers:* William Carden, the band leader, is still trying to run a comb through his wavy locks. *What Do You Know:* Shirley Webster is now private secretary to the principal of Graham's new high school. *Dig This:* Being a private secretary was very profitable to Leone Williams; she married her boss. *Sparks:* Jack Andrews, the great electrical engineer, is still trying to put two wires together without getting shocked. *A Woman In White:* As Carol Robertson soothes the aches and pains of the patients, her own feet are itching for the warm sands of Miami Beach. *A Name In Lights:* Jackie Robertson, Vaughan Monroe is waiting for you to sign that contract. *Can You Imagine:* Tommy

Sledge has just returned to Washington from a nation-wide speaking tour climaxed by his acceptance of the Republican nomination for the presidency. *Hollywood*: Barbara Shumate is currently starred with Clark Gable in the reversion of "Forever Amber." Charanette Shepherd, stay in your chair instead of the boss's lap when taking shorthand. *Guess What*: Dorothy Shepherd is the only secretary in the world to be making \$20.00 a week and wearing a \$10,000 fur coat. *Flash*: J. A. Bowman is a farmer in a candy store; he doesn't do anything but "MILK CHOCOLATES." *Guess What*: Gene Gilliam is on his way to the moon in his super, snazzy, zoot, micro-atom powered scooters. *Huba Huba*: Ruth James has just signed a five-year contract to be a Powers model. *What a Gal*: Carolyn Moon has just been promoted to head dress buyer at Saks 5th Avenue. *A Name In Lights*: The Metropolitan will at least have a singer that weighs under 200 pounds, Carol Guthrie. Mary Allen Drummond, don't be too private in that secretarial work. *Gad*: Frances Cooke is owner of the Clip and Forget To Curl Beauty Shoppe; What a beautician! *Sport Fans*: Edward Clapp has just divorced his fifth heiress, and now he is buying the Cardinals with the hopes of beating Gene Cathey's Brooklyn Dodgers. *Get This*: Julia Brown, the pencil pusher has just accepted the job as private secretary to Dr. Alex Goley, the famous obstetrician. *Society*: Eugenia Okey, the famous interior decorator from New York, has just arrived home to put the finishing touches on Graham's new high school. *Angel of Mercy*: Peggy Parks has just been named Florence Nightingale of Duke for taking GOOD care of the football players—RAY DUKE. *Snap Shot*: Wouldn't I like to have the job of that famous photographer, Bobby Mooneyham, who's spending his time snapping the pictures of the "Beau-ti-ful" lassies. Jerry Holt can be seen with his feet propped on a desk giving orders to a beautiful secretary in his own textile mill. *Peek-a-boo*: Behind there sat sat Nancy Naylor on boss's knee—shorthand must be interesting. Stella Ratliff, Roses' famous floor lady, has a theme song—"I'm Walking the Floor Over You"? *A Name To Remember*: Nat Blackwood must have liked shows pretty well; he is now the owner of North Carolina's largest Drive-In. *A Song To Remember*: Laura Montgomery is having a "Murray" time singing "I'll Be Your's." *Happy*: Doris Holt's winning smile is really taking her places, just look at all those replies. *Guess Who*: Hiding behind those freckles and red hair is Jimmy Hayes, a PROFESSOR at DUKE. Betty B. Moon has just cut ladies' skirts off to the regular length; she is now called "Whistler's Mother." *Get This*: Floyd Phillips, besides being a great journalist, has just been elected mayor of Graham, America's most beautiful city, with Burlington now a small suburb. *Art*: Geraldine Dameron has completed the famous painting of Mr. J. A. Bowman and his two by four grocery store. *Guess What*: Besides being a good housekeeper, Violet Rhodes is a secretary at Glen Hope Baptist Church. *Well What Do You Know*: Donald Vestal, a great architect, is now working on the idea that a sphere has three flat sides and five angles. *Sport Fans*: Wilson Williams has just finished a very unsuccessful season coaching the Haw River Beach Combers. They dropped nine out of ten games. Taking a forfeit from Saxaphaw Rinky Dinks, who didn't show up. *Flash*: Evelyn Guthrie is a splendid secretary for Floyd Phillips, the famous journalist. Mary Carol Ivey is private secretary to Tommy Sledge, the future president of the United States. *Man About Town*: Albert Holt, a thriving contractor, can be seen hopping from one project to another in his souped-up P-51. It was a bad day so he had to leave his beach craft "Sport Plane" at home. Something "Rare"; Carl Pierce, a butcher John H. Stockard, the world renowned detective, is spending a quiet week-end at the Trolinger's Hunting Lodge.

The future history of the class of '48 is all unknown, but judging from past successes and victories, I believe that, when the curtain of the future is thrown back, there will be revealed only progress and happiness for the members of the senior class.

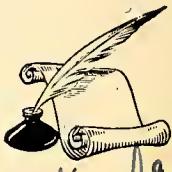

*lots of luck

Autographs

Dear Barbara,
on June the first
1948, my high school at
career will come to an
end, but I certainly don't want to
stop ever. The feeling between us to
high school days, & look back over my
fun we have had together, and I realize how much
there are many many more good times in
future for both of us. Next year I will never forget you, no matter what
college or in the army, but I want you to know
that I will never forget you, no matter what
happens.

I want to wish all the world to the love, luck, and
happiness in the rising senior that ever lived.
